Circuits, LLC achieves ISO9001:2008 certification

May, 2010, Murrysville, PA, Circuits, LLC, a manufacturer of highly reliable flex and rigid flex printed circuit boards announced today their successful completion of ISO9001:2008 certification. The in-depth audit and examination of Circuits' Quality Management System (QMS) and processes was conducted by Performance Review Institute Registrar (PRI). Circuits' compliance with the ISO9001:2008 standard reaffirms the company's strong commitment to quality.

Don Anderson, Quality Assurance Manager at Circuits commented that "We are very pleased to have completed the ISO certification process. I am proud of the entire organization and their ongoing commitment to the continuous improvement of Circuits business systems and processes." Lori Vidra, Circuits' Vice President of Marketing, concurred with Anderson's comments and added "Our customers rely on us for high reliability and quality. This ISO certification confirms our dedication to meeting those customer requirements." Vidra also added that "Obtaining this qualification is only the first step for Circuits this year. We intend to complete our MIL-PRF- 31032 certification by year's end to meet the rigorous demands of the military and defense markets."

The implementation of ISO standards involves all aspects of the business from a quality management perspective; it ultimately improves business systems and processes, enhances customer satisfaction, and improves overall communication. Achieving the ISO qualification is a major milestone for Circuits and comes just shy of their first anniversary. Circuits, LLC is also an ITAR registered company.
